

### Kuu

65 % cotton, 35 % polyester  
ca. 7,5 oz

The name says it all: Kuu – air, sky. Perfect for those karateka who want to feel their body, not their dōgi. Kuu is light but has a great fit, it is thin but very durable – thanks to its material composition and weaving technique. Ideal for kumite specialists. Also travellers will love Kuu’s light weight.

Only available custom made.

### Tsubasa

95 % polyester, 5 % elasthan

Tsubasa is light like a feather, and that’s what it means in Japanese. This ultra-lightweight karate gi allows high speed kumite action and provides maximum mobility. A dōgi which doesn’t stick to your skin – thanks to its special fabric structure on the inside.

Available custom made and slim cut with high waist.

### Pinack Kata

70 % cotton, 30 % polyester  
ca. 13 oz

For all fans of our premium range Pinack. Whereas Pinack Kumite is more of a lightweight, this karate gi meets the expectations of the kata specialist. About 13 ounce heavy and densely woven, this dōgi has a great fit and a lot of “snap”. Thanks to its special fabric – cotton is wrapped around the synthetic fibre – your skin is covered with a natural material.

Only available custom made.

### **Pinack Kumite**

70 % cotton, 30 % polyester

ca. 11 oz

Pinack Kumite stands for a great fit, light weight, durability, mobility, and high quality. This karate gi is also made of a special material which gives you the feeling of natural fibres on the skin: Inside, the thread is made of synthetic fibres, outside, it is pure cotton.

This dōgi is ideal for kihon, kata and kumite.

Available ready-made, ready-made slim cut (with high waist) and custom made.

### **#163**

100 % cotton

ca. 14,5 oz

#163 – preferred by top athletes like Antonio Díaz or Rika Usami. This premium karate gi was developed for kata specialists and stands out for its durability but unlimited mobility.

#163 – strong but not too heavy, the dōgi with the “snap”.

Only available custom made.

### **Takumi**

65 % cotton, 35 % polyester

ca. 12 oz

Takumi – light but extremely stable, densely woven for the „extra snap“. Thanks to its texture, this karate gi meets the expectations of kata specialists and is also ideal for kata application. No artificial fibre touches the skin as only the inside of the thread is made of polyester, the rest is pure cotton.

Only available custom made.

### **MH-10**

100 % cotton

ca. 14 oz

MH-10 – one of the first Hirota karate gi and a heavy weight, preferred especially by kata enthusiasts. Strong and firm, but it still allows you to feel your body in kihon and kumite training.

The material for the MH line was developed by Hirota, based on inquiries between top instructors and athletes in order to meet every expectation of an active karateka.

Available ready-made and custom made.

#### MH-11

100 % cotton

ca. 12 oz

MH-11 – the all-rounder for all situations, kihon, kata or kumite and a dōgi with excellent price / quality ratio.

Available ready-made and custom made.

#### MH-12

100 % cotton

ca. 7,9 oz.

Economically-priced, MH-12 is the ideal entry level model for beginners and children. A light but still durable karate gi made of pure cotton in the classical Hirota cut.
